HONEYMOON TOUR BRITISH COLUMBIA, THE ROCKIES & HAWAII

No 991-14

Copyright by Tom Demosey / www.photoseek.com

The journey that we propose in these pages will stay in your memory as a kaleidoscopic succession of different emotions. You will visit different places with peculiar flora, fauna and nature of each of them. The beauty of nature will surround you wherever you go, along with adventure, pristine environments, relaxation, and top class service. These features make it an ideal honeymoon.

We will start from Vancouver, bright and modern city on the West Coast of Canada, and continue to Vancouver Island, the most beautiful island in North America, famous for its almost incomparable scenery, as well as the magnificent fauna that populates its forests and its waters; you will get introduced to it through several excursions: three species of whales, dolphins, orcas, grizzly bears.

Another unforgettable experience will be crossing Inside Passage by ferry, a true mini-cruise along a protected waterway teeming with wild life both in its waters and along the coasts of the mainland and numerous islands which protect it. From Prince Rupert, the port of arrival, we'll take another "ride" full of emotions: we'll go South to the great parks of the Canadian Rockies, passing through an area of primary importance for native populations ("Indians") along Skeena Valley, finally reaching the Rockies, announced by the view of Mount Robson, and then we'll arrive in Jasper. From here we'll start a tour to

the enchanting lakes, majestic glaciers, to the Rocky Mountains trails, following perhaps the most scenic road of the world, the Icefields Parkway.

The last part of this journey will bring you to a totally different place, the relaxing tropical atmosphere of Hawaii, between dream beaches, ancient volcanoes, lush and exuberant nature. It will be the perfect culmination of your ideal honeymoon.

You will arrive at the airport of Lihue, Kauai. Here you are to collect another rental car and travel to the northern part of the island. Upon arrival at your 4-star resort in front of one of the most beautiful beaches of the island, Poipu Beach, you'll have time to discover the delights of the place. Or you can simply relax by the pool with your favourite drink and enjoy the magnificent view! Dinner and overnight stay at your hotel

DAY 2: HANAIEI BAY BEACH PARK AND WAIMEA CANYON

After a sumptuous breakfast in the hotel in front of the enchanting Bay, you will head to the West. In 10 minutes you will arrive in Hanalei Bay Beach Park. The entire Hanalei Bay is a long stretch of white sand; it is a favourite destination of many local and foreign surfers. After a snack you will take the Kuhio Highway (Highway 56) heading towards the Interior of Kauai. Here you can start an amazing adventure through the forests and valleys of the island! Along the way there are many sights, which rise on the depths of Waimea Canyon; the most impressive is surely the Waimea Canyon Overlook: stop to admire the canyon in all its grandeur, you won't be disappointed. Free dinner time

DAY 3: DISCOVERING THE SEA OF KAUAI. ANINI BEACH

Take the Kuhio High way and turn after a few minutes of driving to Kalihiwali Road. Then take Anini Road and enjoy a day at Anini Beach Park, an almost 5 km long beach, protected by one of the longest coral reefs in Hawaii: this is a perfect place to snorkel. The lagoon is home to many marine species, such as triggerfish, parrotfish and unicorn fish. The

sea breeze blowing on the area also attracts many of those who love windsurfing, kite boarding and kite surfing. After a kayaking tour in the beautiful Bay, return to your hotel for dinner before at the time of wonderful sunset.

DAY 4: MAJESTIC AND MAGNIFICENT NAPALI COAST

In the morning of the fourth day you will wake up early to go to Hanapepe Bay, in the southern part of the island. It's 30 miles of untouched nature, with the Green pinnacles mountains, 1200 m high tower overlooking the sea. After admiring the coast you will cross the channel that separates Niihau from Kauai, "The Forbidden Island". With population of only 250 inhabitants, is the smallest of the inhabited islands of Hawaii, long off limits to visitors. Once you arrive in Niihau, you'll have a day dedicated to snorkeling. After visiting Niihau you'll go back to

Hanapepe Bay. From here move westward along the Salt Pond Road and relax in the Salt Pond Beach Park, an ideal place to swim and sunbathe in full privacy. In the late afternoon you will return to the hotel and have free dinner time.

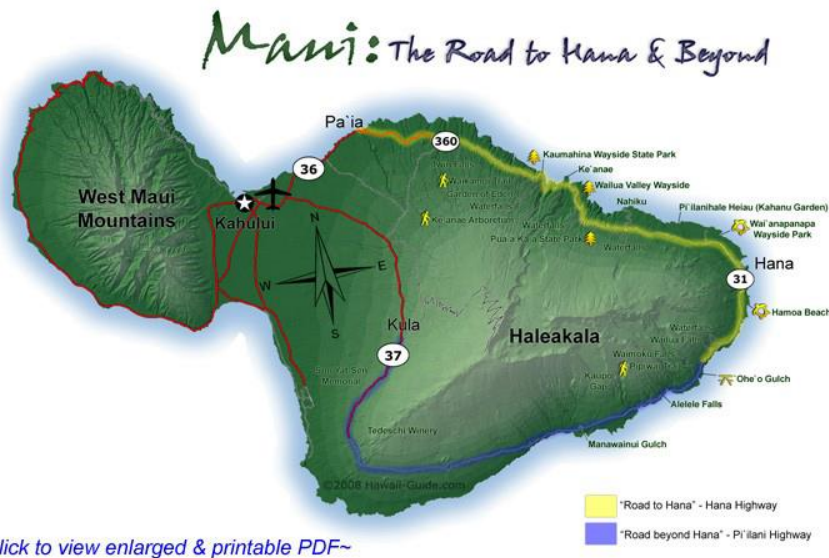

DAY 5: TUNNELS BEACH

Just 15 minutes away from your resort, lies Haena Point, where Tunnels Beach is located, surely one of the most exciting places on the island for snorkeling, diving or surfing. What makes it unique is its wide lagoon and its impressive coral reefs: Tunnels Beach has two coral reefs, one indoor and one outdoor, the latter is so impressive that it's visible even from the space! And they're like galleries, tunnels, opening in the barrier reef and giving the name to the beach, and that makes it so special.

It's time to take the road to the airport where you will return the car and proceed to the boarding gate for a flight that will take you to Maui another pearl of the Hawaiian archipelago.

PART 3: HAWAII (MAUI)

DAY 1:

On arrival you are to collect your 4 × 4 and travel to your accommodation at a stunning 4-star resort along the most beautiful beach of Maui. As soon as you have refreshed, in the early afternoon you will take your first trip to Ahihi Kinau Preserve. It is accessed by a road which is not marked on the maps. If the conditions are of dead calm in the

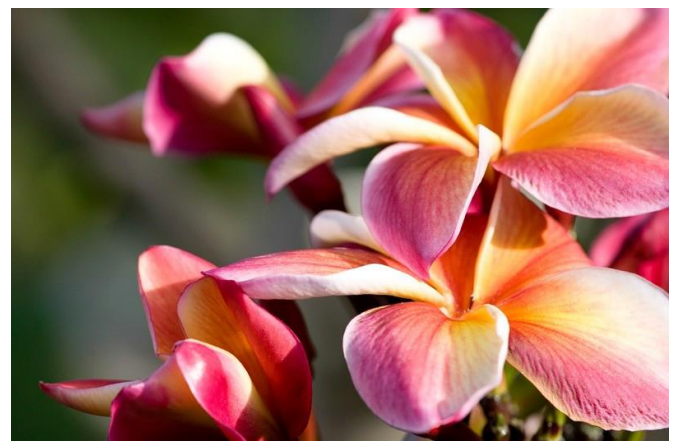

Bay, snorkeling can be excellent. Despite being easily reachable by car, Ahihi Kinau keeps the atmosphere of a "corner at the end of the world", charming with its simplicity.

DAY 2: NORTH OF MAUI AND KAPALUA BAY BEACH

Honolua Bay is located in the northern part of Maui and is part of the Mokuleia Marine Life Conservation District. The rocky beach is ideal for sunbathing, but the calm waters of the Bay and the incredible variety of marine species make Honolua Bay a great place for diving and snorkeling. The Honolua Bay of Maui in its north-west part also offers many other beaches, such as D.T. Fleming Beach, Oneloa Bay. But one place not to miss is Kapalua Bay Beach: located just to the North of Napili Bay, Kapalua Bay Beach has been repeatedly elected the best beach in the world! After spending a day of snorkeling and sun in Maui, you will return to your hotel.

DAY 3: KANAYO COAST AND MOLOKINI CRATER

Head to Kihei, on the West coast of the island, discovering two of the wonders of the Kanaio Coast Maui and Molokini Crater. You will first come into contact with the Kanaio Coast, where the lava, cooling , gave birth to a beautiful, really like conformations caves, arches and caves. Then it'll be the turn of La Perouse Bay, often frequented by dolphins with their cubs, who come to boats to play with the

waves. After leaving La Perouse Bay, start your trip today to Molokini Crater, an ancient volcanic crater almost totally submerged, and now considered one of the best spots for snorkeling in Hawaii. After leaving Molokini you'll go to Makena, where you can swim among sea turtles. Your adventure will end back in Kihei with a visit to the Humpback Whale National Marine Sanctuary.

DAY 4: HALEAKALA

Your fourth day in Maui will be dedicated to the exploration of Mount Haleakala, the highest mountain of Maui. Haleakala, which literally means "House of the Sun", is actually a volcano and the largest dormant volcano in the world: its last eruption dates back to 1790. It reaches 3000 meters of altitude and the crater is truly huge: It's 11 km in diameter, 3 kilometres wide and 800 feet deep. Your stroll will start at a height of 150 metres above sea level and you'll continue ascending through the groves of guava, acacia and eucalyptus. You will pass

next to a waterfall while entering deeper and deeper into the nature of Maui, that also includes bamboo, ginger and plants typical of the place. This will be a truly extraordinary experience, which you will never easily forget, a day in close contact with the unique flora of Hawaii!

DAY 5: THE ROAD TO HANA

This will be the last trip before your departure: "the road to hana", famous for the beauty of its unspoilt landscapes and impressive waterfalls. The area is known as "The Land That Time Forgot" and you'll see why when you're there. Enjoy the unique experience of trekking in the bamboo forest, an area filled with mystery, wonder and photo opportunities. Although this trail is really family friendly, it's an unforgettable experience featured by relaxing sound emitted by wind through bamboo. You can see tropical birds and other wild animals.
